SELECTED PROJECTS

ITEM7 | REACT, JAVASCRIPT, CSS, FIREBASE

2024

- Item7 is a user-centric restaurant web-app that enable users to see the available menu, add to cart then checkout. Coupled with some other functionalities to enable a smooth user-experience. It uses firebase and firestore for authentication and data storage.

WIBA | REACT, JAVASCRIPT, CSS, FIREBASE

2024

- WIBA is an ongoing full stack project that works seamlessly across all mobile devices. It enables students take quiz and download study materials to enable them pass exams. It uses firebase and firestore for authentication and data storage.

CAR QUIZ | HTML, CSS, JAVASCRIPT

2023

- A quiz website for cars that test user knowledge about different car. This project horned my JavaScript knowledge with better understanding of functions, data structure and Dom manipulation and their different use case and it works seamlessly across all devices.
