Location: Ikotun, Lagos Nigeria | LinkedIn: linkedin.com/abdurraheem-pelumi

EDUCATION

Ekiti State University, Ado Ekiti (EKSU),

Ekiti State, Nigeria.

2018 - FEB 2024

Bachelor of Science in Mathematics

PROFESSIONAL EXPERIENCE

HNG INTERNSHIP

Frontend Developer Intern

JUNE 2024 - AUG 2024

- Collaborated on team projects using modern frameworks and libraries such as React to create responsive and interactive user interfaces as well as styling web pages to ensure cross-browser compatibility and optimal performance on different screen sizes and devices.
- Worked closely with designers and product teams, utilizing tools like Figma and Sketch, to implement designs and enhance user experience (UX).
- Conducted usability testing and gathered feedback to improve application usability and functionality, participated in code reviews, learnt best practices and version control using Git & GitHub.
- Contributed to the optimization of website performance and reduction of load times.

QAMDA ELECTRO-COMPUTECH

Technical Tutor

2018 - 2022

- Collaborated with a team of skilled educators to provide coding lessons for kids and teenagers, teaching fundamental programming concepts and languages such as HTML & CSS
- Developed and delivered lesson plans that made complex coding concepts accessible and engaging for young learners.
- Assisted students in building basic web projects, fostering a practical understanding of front-end development.
- Provided one-on-one support to students and encouraged critical thinking and problem solving skills.

CORE COMPETENCIES

Languages & Frameworks: React.js, JavaScript, HTML5 & CSS3, Tailwind

Tools & Technologies: Firebase, Firestore, Git & GitHub, Figma, Sketch

Skills: API Integration, Responsive Design, Cross-Browser Compatibility, UI/UX Design

SELECTED PROJECTS

ITEM7 | React.Js | JavaScript | CSS | Firebase

- Item7 is a user-centric restaurant web application that allows users to view the available menu, add items to cart and proceed to checkout. The app features a smooth and seamless user experience with functionalities such as order customization and a responsive interface. Firebase and Firestore were used for authentication, data storage and real-time updates.

WIBA | React.Js | JavaScript | CSS | Firebase

- WIBA is an ongoing full-stack project designed to provide a seamless experience across mobile devices. It enables students to take quizzes and download study materials to help them pass exams. The app uses firebase and Firestore for user authentication and data storage.

CAR QUIZ | JavaScript | CSS | HTML

- Car Quiz is an interactive quiz website designed to test users' knowledge about various cars. This project enhanced my understanding of JavaScript, focusing on functions, data structures, and DOM manipulation. It also honed my ability to create responsive designs, ensuring the website works seamlessly across all devices.
